NP300  
HARDBODY

**PROVEN**

# HARD BODY

# PROVEN DURABILITY AFRICAN BORN, AFRICAN HARDENED

Tested in the most unforgiving conditions Africa has to offer, the NISSAN NP300 HARDBODY has proven over the years that it's made to last. Specifically engineered for harsh environments, all NP300 HARDBODY models incorporate a heavy duty axle with reinforced chassis and suspension to absorb the impact of the toughest terrain.

The NISSAN NP300 HARDBODY has a backbone to match, too. A full-length, closed section ladder-type frame with high-tensile-strength steel – stronger than conventional steel – in strategic areas ensures improved structural rigidity. This means increased torsional stiffness, helping to deliver enhanced performance on-and off-road, whatever the load. Further proof that the NISSAN NP300 HARDBODY is the pickup built to tackle any challenge Africa has to offer.

4WD double cab high grade

2WD single cab mid grade

# PROVEN PERFORMANCE BUILT FOR THE LONG HAUL, DESIGNED TO PERFORM

## ENGINE

Nissan diesel engines have built an enviable reputation for clean firing, smoother acceleration and drivability, resulting in impressive fuel efficiency with reduced emissions. The result is a quieter ride with less vibration, wear and tear and an overall decrease in maintenance costs. And the eco-friendly oil cartridges can be completely incinerated after use, making our engines as environmentally responsible as they are hard working.

The NISSAN NP300 HARDBODY's intercooled 2.5 litre common rail turbo diesel engine balances toughness and power with excellent fuel efficiency, using the combination of turbo and intercooler to deliver 98kW (131.4hp) of power and 304Nm (30.7 kg-m) of torque.

## DRIVE TRAIN

Clean and easy shift changes are provided by the 5-speed manual transmission, and a braking systems load-sensing valve increases brake power to the rear when moving large loads, ensuring the NP300 HARDBODY makes light work of the toughest jobs.

Engaging 4WD locks the transfer case in a 50/50 torque split for maximum traction from front and rear axles. Auto locking hubs come standard on the NISSAN NP300 HARDBODY 4WD models. When not in use, the hubs are automatically released, improving fuel economy.

## LIMITED SLIP DIFFERENTIAL

4WD models come standard with a Limited Slip Differential which automatically transfers torque to the non-slipping drive wheel, allowing you to power out of virtually any situation. And unlike diff lock, it won't lead to expensive breakages due to negligence and can work at speed.

# PROVEN DESIGN MADE FOR BUSINESS

## INSIDE AND OUT, THE NISSAN NP300 HARDBODY IS DESIGNED TO KEEP YOUR BUSINESS MOVING IN THE RIGHT DIRECTION

### RUGGED EXTERIOR

The NISSAN NP300 HARDBODY's build quality and robustness extends to the exterior finishes too: developed and tested by firing diamond chips at the paintwork ensures maximum protection from flying gravel or stone. In addition, the all-round E-coat anti-rust treatment means that it can cope in extreme damp or humid conditions.

The pickup's masculine presence is enhanced in higher grade models with a roll bar, side steps, roof rail and an aluminium rear step bumper, while workhorse models come standard with a guard frame for extra cab protection when carrying loads. Add the reinforced load box, extra-strength tailgate chains, double-walled tailgate and rear side panels and sturdy cargo hooks, and it becomes clear that the NP300 HARDBODY really means business.

All diesel models feature a bonnet scoop that increases airflow into the turbo charger's intercooler, and hints at the formidable power beneath the hood. The long travel suspension with 15" steel wheels on the 2WD Single Cab, and 16" alloy wheels on all other models, allows for excellent ground clearance and the confidence to handle almost any African terrain.

### VERSATILE INTERIOR

Comfort and functionality on all models are provided by tilt adjustable and power steering, and sliding front seats make getting in as easy as getting out.

A range of additional features are available depending on the model and grade: lockable glove box and door pocket with drinks holder, air-conditioner, radio with CD player, centre console with cup holders and power windows.

### PROVEN PARTNERSHIP

The NISSAN NP300 HARDBODY remains the ideal choice of business partner in the commercial sector. Its dependable heritage has been built on well-proven mechanical underpinnings while fulfilling – and often going beyond – the essential functional systems requirements of today's business operations.

With a proud history of solid durability and reliability, together with strong after-sales support, skilled technicians and readily available parts, downtime is reduced to a minimum. This, together with the economical total cost of ownership, ensures your business stays firmly where it belongs – on the road.

# NP300 HARDBODY

# PROVEN IRONCLAD PROTECTION

THE NISSAN NP300 HARDBODY MAKES SAFETY AND SECURITY A PRIORITY

## SAFETY

A steel reinforced chassis provides strength and absorbs the force from the front, while crease folds minimise impact in the cabin and side door intrusion bars add further protection to occupants in the event of an accident. Add driver and passenger airbags, in conjunction with the 3-point ELR seatbelt, and you are assured of the maximum protection all round.

For greater handling and control, the NP300 HARDBODY comes with fade resistant shock absorbers, ventilated front discs and a rugged double wishbone and independent suspension with telescopic shock absorbers, while the Anti-lock Braking System optimises braking performance.

With higher ground clearance and halogen headlamps for all-round visibility, you can be confident that both your people and your cargo are in safe hands.

## SECURITY

The NISSAN NP300 HARDBODY makes security a priority. Standard in top of the range models are remote, keyless entry, central locking and child locks. And throughout the range, immobiliser, personally coded ignition key and fuel tank cap key are standard. For more detailed information on features, please see the specifications table.

# PROVEN TAILORED TO YOUR REQUIREMENTS

## ALL THE EXTRAS YOU NEED FOR THE PERFECT FIT

You know what you like. And with Nissan approved accessories you can customise your NP300 HARDBODY to perfectly fit your needs, whether it's functional style you're looking for or enhanced utilitarian capability.

Speak to your Nissan dealer for more information on the full range.

Some accessories are not compatible with all model grades.

Accessories available include:

- Tonneau Cover
- Towing Kit
- Canopy
- Loadbox rubberising
- Spare wheel locks
- Sports Bars
- Side Steps
- Bonnet and Headlamp guards
- Carpet sets
- Wraparound bushbar
- Nudgebar

## Nissan's commitment to quality

To provide all customers with a consistently high level of quality, Nissan applies the same standards worldwide, to ensure that all Nissan owners enjoy peace of mind for the lifespan of their vehicles. The approach is based on quality from the customer's perspective on three key elements. First, the expectation of a smooth driving experience with complete peace of mind. Second, the intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. Third, the level of attentiveness and service during the sales process, and long after the sale is concluded.
